

In light of the Centers for Disease Control and Prevention's (CDC) revised COVID-19 guidelines, Westminster's session has revised our masking policies, effective Sunday March 13:

- Masks will be optional during worship.
- Masks will be optional for children in grades 1-6. Masks will still be required for children age 5 and under.
- Masks and vaccination will continue to be required for all children's ministry volunteers, both music and education.
- Our choirs will continue to wear masks, both in worship and in rehearsal.
- The children's choirs will begin singing this Sunday. We are requiring vaccinations for those participating. Masks are also required during choir.
- Other in-person gatherings in the church building will be mask-optional, based on the preferences and comfort of those in attendance.
- Masks will continue to be recommended for those who are not triple vaccinated.

Our Session will continue to revise and reevaluate these policies as needed.
